RE: Standard Survey Results

Dear Mr. Scoles:

To assist the Centers for Medicare & Medicaid Services (CMS) and the Division of Health Care Financing in determining whether your skilled nursing facility is in compliance with the Federal regulations for the continued certification in the Medicare and Medicaid programs, the Bureau of Quality Assurance conducted a standard survey in May, 2003 and have determined your facility to be in compliance with applicable federal and state requirements.

This survey resulted in no deficiencies being served at your facility. This is a significant accomplishment for which you and your staff are to be complimented.

Based on the results of this survey, we have recommended to CMS and the Division of Health Care Financing that your certification as a skilled nursing facility be continued. You should advise this office of any changes in staff, services, or organization that would affect your federal certification.

Enclosed is a copy of the CMS-2567 documenting the survey results for your records

Certification survey results for a nursing home are entered into the federal OSCAR computer system approximately 2 weeks after the receipt of this letter. Two OSCAR reports are available to display and compare a nursing home's survey results:

- OSCAR Report 3: History Facility Profile: Provides nursing home's last survey's data along with comparisons to its 3 previous surveys.
- OSCAR Report 4: Full Facility Profile: Provides a nursing home's last survey's data with comparisons to state, regional and national averages.
